

XDS Driver Vetting Bulletin

In 2014, XDS took the transport sector by storm when we introduced a centralised comprehensive database of drivers in the sector.

Fast forward 9 months later and XDS currently has approximately 80% of the drivers with data contributors being companies under the Transport Operators Association. XDS is a risk management company, specializing in the management of financial as well as recruitment risk. We have thus developed a product titled E Check which is particularly for managing the risk around recruiting the right individuals and detecting fraud well before it becomes an issue within your organisation.

Data Points on
XDS Database:**

6 000”

Feedback from Transport Companies Making Use of XDS Services:

“In the past year since we have been involved with XDS, your system aids us greatly in improving and developing our Human Resources Management Procedures, ensuring Driver Recruitment, and the criteria attached thereto, is solid and compact.”- Simone Mesham (Managing Director of Nick’s Motors)

Transport companies currently contributing driver information to XDS include:

- Whelson GDC
- Cross-country Containers
- Loadhaul
- Sakunda Logistics
- Strauss Logistics
- Nick’s Motors
- Dharwizi
- Sabot Cargo Carriers
- Biltrans
- Alro Transport
- Leopack
- Tauya Coach Services
